

LOOK: *Garden Party*

**Garden and Rustic Weddings** are two of the biggest trends in wedding themes right now. Wear a candy colored dress with the same colored necklace for a streamlined monochromatic look. Gold accessories add a feminine touch. You never know what the grounds will be- grass, gravel or hay so choose a chic pair of flats that can fold up in your purse if you want to kick off your shoes and dance.

LOOK: *Resort Chic*

**Destination Weddings** may involve a beach, island, boat or some fabulous far away place. If the wedding is on sand you won't be able to wear heels or wedges so make sure your long dress is hemmed appropriately. Dress up a printed Kaftan with a fun clutch, statement necklace and fun jeweled sandal. Try on your head to toe look before you pack it to make sure you have everything you need.
